

KRISHA PATEL

B.Tech Information Technology Student

+91 6359521767 kp09032006@gmail.com Gujarat, India

PROFESSIONAL SUMMARY

- 6th-semester B.Tech student** with a solid foundation in Information Technology and a strong focus on Data Analytics.
- Hands-on experience** in building logic, analyzing data, and solving problems using SQL, Excel, and Python.
- Seeking a challenging **Data Analytics / IT internship** to build scalable solutions and contribute to real-world impactful projects.

EDUCATION

Bachelor of Technology (B.Tech) - 6th Semester

Madhuben & Bhanubhai Institute of Technology (MBIT)
Charutar Vidya Mandal (CVM) University

Currently Pursuing

TECHNICAL SKILLS

Data Analytics & Visualization

SQL

Microsoft Excel

Power BI

Programming Languages

Python (Basic)

Core Competencies

Data Processing

Database Fundamentals

Problem Solving

ACADEMIC PROJECTS

Agrovision: Smart Crop Health Monitoring System

Technologies used: Python, Database Integration

- Built an intelligent monitoring platform to analyze agricultural data and deliver actionable crop health insights to farmers.
- Developed core logic to process health metrics, enabling early disease detection.
- Integrated data points with a user interface to ensure smooth data visualization and user experience.

Double Layer Steganography

Technologies used: Python

- Implemented a secure data hiding technique using double-layer steganography to enhance data privacy and security.
- Developed algorithms to embed secret messages within media files without noticeably altering the original file structure.
- Focused on data encryption logic and maintaining the integrity of the hidden information.
