PROFESSIONAL SUMMARY

Final-year Information Technology student with a strong foundation in Data Analysis, SQL, Python, Excel, and Power BI. Passionate about transforming raw data into meaningful insights through analytics and visualization. Eager to contribute analytical and problem-solving skills in a data-driven organization.

EDUCATION

Bachelor of Technology (Information Technology)
Madhuben & Bhanubhai Institute of Technology (MBIT), New Vidhyanagr, Anand
2023 – 2027

Higher Secondary Education
Kasturba Kanya Vidhyalay, Anand, Gujarat
2021 – 2023

TECHNICAL SKILLS

- **Languages:** Python, SQL
- **Data Analysis:** Excel, Pandas, NumPy
- **Visualization:** Power BI, Matplotlib
- **Core Skills:** Data Cleaning, Data Analysis, Dashboard Development, Problem Solving, Analytical Thinking, Team Collaboration

EXPERIENCE

Data Analyst Intern | **Keryar IT Solution** | **May 2026**

- Collected, cleaned, and organized datasets from multiple sources to improve data accuracy.
- Analyzed datasets using SQL and Excel to identify trends and business insights.
- Built interactive Power BI dashboards to visualize key performance indicators.
- Automated recurring reporting tasks using Python.
- Collaborated with cross-functional teams to solve business problems using data.

PROJECTS

Zomato Sales Analytics, AI Prediction & Recommendation System

- Technologies: Python, Pandas, Scikit-learn, Flask, Chart.js, HTML, CSS, JavaScript.
- Built interactive dashboards to analyze Zomato restaurant, customer, cuisine, and sales trends.
- Developed ML models for order-value prediction with $R^2 = 0.7865$.
- Created pricing insights and restaurant recommendations using city, cuisine, budget, and dietary preferences.
- Implemented data cleaning, feature processing, and dashboard caching.

AgroVision: Smart Crop Health Monitoring System

- Developed a Python-based crop monitoring solution for disease detection.
- Integrated database-driven crop health metrics.
- Designed a simple interface for data visualization.
